

LANDSCAPING COLLECTION

The MKM difference

At MKM, we understand that a beautifully landscaped garden can transform any outdoor space into a relaxing retreat or a vibrant gathering place. Whether you're a professional landscaper looking to source the highest quality materials for your customers, or a DIY enthusiast eager to enhance your garden with your own hands, MKM has everything you need to bring your vision to life.

With a comprehensive range of products, including fencing, decking, paving, summerhouses, and garden furniture, MKM is trusted by the trade for our huge selection of products and exceptional service. Our knowledgeable specialists provide their expertise and advice, whilst many of our branches boast landscaping displays for you to see and feel the products.

Inspiration

Trends we're expecting to be popular in 2025.

Create a budget-friendly garden paradise

Sustainable Gardens

Sustainability continues to be a key focus. Gardens will be designed to minimise environmental impact, incorporating recycled materials for garden structures and furniture, and using organic methods to nurture plants.

Forest Garden Compost Bin

Forest Garden Elmley Log Cabin

Outdoor Living Spaces

With a continued importance on creating multifunctional outdoor areas, gardens will increasingly serve as extensions of indoor living spaces. Expect to see more garden designs that include outdoor kitchens, entertainment zones, and comfortable seating areas. Features like pergolas, fire pits, and weather-resistant furnishings will be popular.

Porcelain Paving

Porcelain paving is set to be the most popular choice for UK gardens in 2025 due to its impressive durability, low maintenance, and resistance to staining. It offers aesthetic versatility, with a variety of designs and patterns that mimic natural stone, wood, or concrete, allowing for stylish and contemporary looks.

Burlington Rust

MKM greener options

When sprucing up your garden or completing a landscaping project with MKM, consider choosing 'greener options'.

MKM offers 'greener options', though not free from all environmental impact, these options are a fantastic step forward.

Look out for products that reduce energy use, are crafted from planet-friendly materials, or contribute to a healthier home and planet. Our products feature an icon if they are a greener option and are broken down into energy, resources and planet:

Reduce Energy Use

These products must either be more energy efficient than traditional alternatives, offer greater control over home energy usage, exist to specifically reduce energy consumption, or utilise and generate renewable energy.

Responsible Use of Resources

These products make responsible use of resources. This includes using sustainably sourced timber, being made from recycled or renewable materials, and being designed for a longer product life.

Healthy Home & Planet

These products contribute to a healthier living environment, support and encourage biodiversity, and use water responsibly.

**Greener
option**

When browsing our brochure or website, keep an eye out for this icon if you are interested in doing your bit!
Find out more at mkm.com/sustainability/greener-options.

Paving the way

Not sure what type of paving to go for? We'll help you choose the right paving for your project.

Fortuna® Core

Fortuna® Core porcelain paving offers the look of natural stone with the durability and low-maintenance benefits of traditional porcelain. Designed with a subtle riven texture, these pavers are ideal for outdoor spaces. Their low water absorption makes them highly resistant to frost and stains, ensuring that the tiles won't fade over time. This means your paving stays beautiful with minimal upkeep, letting you relax and enjoy your garden worry-free.

Drainage

Protect your patio, grass and plants from water and weather damage with ACO's complete range of channels and accessories.

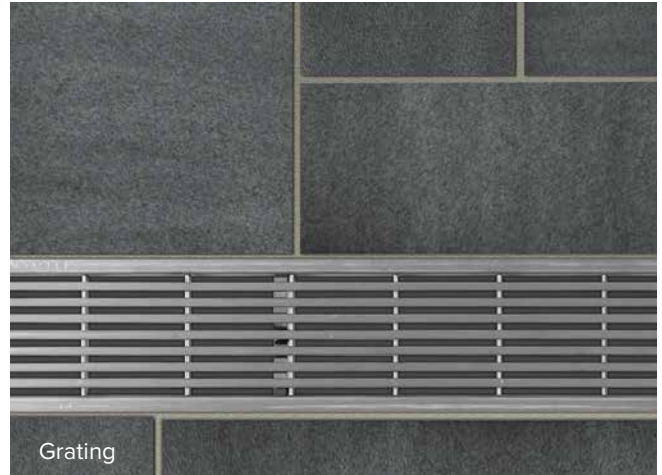

Drainage

03

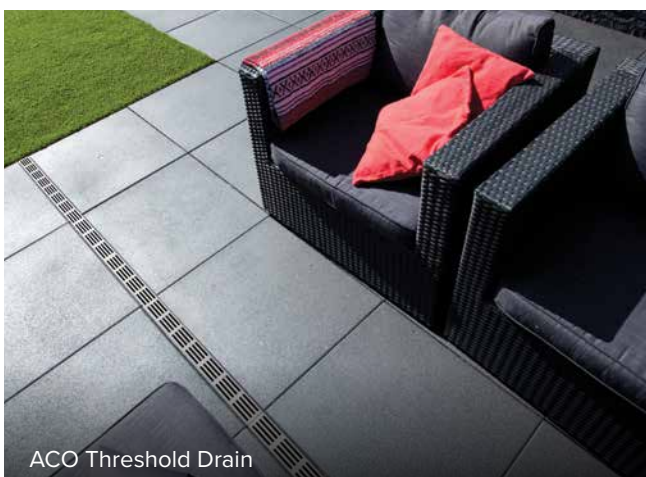

DRAINAGE CHANNELS

Ensure excess water is removed from your property with ACO HexDrain and RainDrain solutions.

GRATINGS

To be used with HexDrain & RainDrain to enhance the look of your property. Available in a choice of styles including discreet slot options.

THRESHOLD DRAINAGE

The ACO Threshold Drain removes water ponding at entrances. We have a variety of finishing options available, from slimline stainless steel to anthracite carpet.

GRASS & GRAVEL PROTECTION

ACO GravelGuard and GroundGuard provide a lightweight ground reinforcement system helping to reduce the risk of potholes, rutting or grass damage.

Grass 04

Artificial Grass

Artificial grass is an outstanding alternative to natural turf.

Artificial grass eliminates the hassle of mowing, watering, and weeding, giving you more time to enjoy your vibrant green space throughout the year. It's child and pet-friendly, providing a safe environment to play. With lower pollen levels, artificial grass is also a great choice for allergy sufferers, making it the ideal solution for a beautiful and practical lawn.

Featheredge Panel

Sawn Fencing

Sawn fencing consists of individual vertical timber boards, offering a customisable approach for your outdoor space. Crafted from high-quality timber, these boards come in various lengths and sizes and are pressure-treated in brown or green to guard against rot and decay.

Please note that lengths may vary by region, so be sure to check with your local branch before purchasing.

VENTO Natural & Brown

Composite Fencing: VENTO

DuraPost®
BY BIRKDALE

A modern, stylish and durable fence panel solution.

DuraPost® VENTO panels are fully adaptable, meaning you'll get the perfect fence height for your outdoor space. Work out from your desired fence height which components you need to buy, or pop into your local branch if you need further advice.

SELECT YOUR HEIGHT

3ft, 4ft, 5ft, 6ft

WHAT YOU WILL NEED

- VENTO boards - brown, grey, natural
- VENTO rails
- Classic posts

Brown

Grey

Natural

Complete the look with **gravel boards, cover strips and post caps.**

URBAN Sepia Brown

Composite Fencing: URBAN

DuraPost®
BY BIRKDALE

URBAN Slatted Panels offer great flexibility in design, with their unrivalled authentic timber grain finishes in a choice of three stylish colours, that will never need painting! They can be installed vertically, or horizontally – ideal in a smaller garden to build the impression of space.

Brown

Grey

Natural

WHAT YOU WILL NEED

- **URBAN rails:** Each pack contains two horizontal U-shaped rails, one for the bottom edge of the panel and one for the top
- **URBAN composite slats:** Sold in packs of two boards, 3 packs contain all you'll need to build a full 1.8m (6ft) fence panel
- **Colour match pan-head screws:** To go with every colour in the DuraPost® Range

Glass Balustrades

A photograph of a stone building with a glass balustrade on a balcony. The balustrade is made of clear glass panels held by black metal posts. The building has a stone wall and a dark roof. The sky is blue with some clouds.

**Durable &
long lasting.**
Find at your
local branch

Glass balustrades are a stylish and versatile option for any garden or outdoor area, adding a modern touch that radiates style and sophistication.

They offer unobstructed views of the surroundings, ensuring safety and security without compromising the look and feel.

The transparent design seamlessly blends with natural elements, making them ideal for creating secure boundaries around features like fish ponds or providing support along outdoor steps. Enjoy both beauty and functionality with glass balustrades in your outdoor space.

Perfect for creating **raised beds and planters.**

Incised Sleepers

Sleepers

Sleepers are versatile elements that can be used to create borders, pathways, or raised beds for growing plants and vegetables.

Our sleepers are specially treated to resist rot and decay, ensuring their durability. With proper maintenance, these sleepers will provide lasting beauty and functionality for years to come.

SOFTWOOD SLEEPER

Made from kiln-dried softwood, incised and treated in brown or green to protect against long-term rot and decay.

OAK SLEEPER

Supplied untreated due to the timber's natural durability and silver colouration over time.
