Multi-Purpose Products

Multi-Purpose Screening UC3U
25 x 50mm

Screening type cladding pre-treated with Tanalith

Finished sizes: 20.5 x 44mm after machining/prior to treatment

Treatment specification: UC3U

Length specification: 4.2 - 4.8m

Pieces per pack: 240

Other: Planed eased 4 edges

Our multi-purpose screening is a versatile garden product that can be used as conventional trellising, screening, (i.e. for privacy, shade, or to fill voids under decks)

It is machined from slow grown and carefully selected Scandinavian softwood and comes with a 15 year product treatment warranty.

Multi-Purpose Screening UC3U
25 x 100mm

Screening type cladding pre-treated with Tanalith

Finished sizes: 20.5 x 95mm after machining/prior to treatment

Treatment specification: UC3U

Length specification: 4.2 - 4.8m

Pieces per pack: 120

Other: Planed eased 4 edges

Timber Screening

Multi-Purpose Screening

32 x 75mm

Screening type cladding pre-treated with Tanalith

Finished sizes: 27 x 69mm after machining/prior to treatment

Treatment specification: UC3U

Length specification: 3.6-4.2m

Pieces per pack: 128

Other: Cover is flexible

Our Multi-Purpose Screening profile is great for creating general purpose privacy screening around your garden and filling gaps under elevated decks.
It can also be used to create a privacy style deck balustrade with a simple wrapping style handrail as shown or to cloak external walls/ elevations known as rain-screen type cladding.
